---

*\$12*

---

## D.C. TEA PARTY

Earl Grey (Decaf), Peach Tamarind Element Shrub,  
Gold Syrup, CO2

*An 18th century “shrub & soda” with a Boston Tea Party twist.*

## ROTATING CREAM SODA

Rotating Fruit Syrup, Vanilla Honey Syrup, Soda

*The earliest version of cream soda date back to the 1850's. Much different from the style that we enjoy today, the earlier styles contained cream of tartar, beaten eggs, milk & epon salt. Other versions resembled an ice cream float instead of a soft drink. By the end of the 1800's, Dr. Browns (a NYC staple) introduced a bottled product which we recognize as cream soda today.*

## FOUNTAIN OF YOUTH

Rose Petal and Citrus Peel Syrup, Acid Phosphate, Soda

*The legendary Fountain of Youth was alleged to be in what is now St. Augustine, Florida. Rumored to grant eternal youth and health to those who bathed and drank its waters, it has captured the imagination for millennia. Inspired by these myths, along with classic soda fountains from the turn of the 20th century, this is a delightfully refreshing floral Florida pop.*

If these cocktails aren't to your liking, we would be more than happy to make you your favorite drink.
